

Registration Gateway

Intelligent Online Student Registration

What is Registration Gateway?

Registration Gateway is the only truly paperless enrollment solution on the market that simplifies the K-12 student registration process and prepares your district for Digital Transformation.

Save time. Cut costs.
Reduce legal risk.
Increase funding
opportunities.

All with Registration Gateway®

How to Solve an Ever-Growing Problem

K-12 student registration has become an increasingly outdated, slow process. Registration is projected to increase 4% annually—and the cost per student to increase 8% annually. These are two trends on a collision course that can be avoided.

Old Systems, Hidden Risks

Outdated processes expose schools to more and more legal risks. How does your school or district control the flow of FERPA classified documents during the registration process and beyond. From government compliance to policy enforcement, the current process leaves schools exposed to costly lawsuits and fines.

The Registration Gateway Solution

Registration Gateway takes a process that once took up to two hours per student and reduces it to mere minutes. With Registration Gateway, administrators can shave costs, reduce legal risk and make the most of funding opportunities.

Registration Gateway integrates directly with all major School Information Systems (SIS)!

About Registration Gateway and SRC Solutions

Registration Gateway is the only Online Enrollment Solution to win the District Administrator Top 100 Product award back to back. This also goes to show why school districts are leaving their existing solutions and migrating to Registration Gateway at record pace.

Reaping the Benefits

Parents, Superintendents, IT Managers and Administrators all over the country are reaping the benefits of the streamlined and paperless student registration process powered by Registration Gateway: Compliance. Time and Cost Savings. Data accuracy. Increased funding opportunities. Simplified downstream reporting.
